Become an Educational Technology Specialist

Get state certification with an MSEd in Educational Technology or, for those who are state certified in another discipline, earn an Advanced Certificate in Educational Technology.

Pace University's School of Education and Seidenberg School of Computer Science and Information Systems are proud to announce their:

Educational Technology Specialist Program–a program for Instructional Technology that meets requirements for professional certification for 1–6 or 7–12 teachers to help them become specialists and facilitators.

MSEd Educational Technology Program– a 36–39 credit program for candidates admitted to the program without a master's degree.

Advanced Certificate in Educational Technology Program–a 24–27 credit program for candidates admitted to the program with a master's degree

Why Pace University?

- Study at a nationally accredited School of Education
- Graduate assistantships available for summer, fall, and spring admission
- Two convenient campus locations: NYC and Westchester
- Take evening classes that allow you to work and go to school
